

PAJUNK®

REGIONAL ANAESTHESIA
& PAIN MANAGEMENT

SonoPlex® II

*Echogenic, Stimulating Single Shot
Nerve Block Needles*

The Echogenic Needle with a New Hub

SonoPlex needles were especially developed by PAJUNK® for single shot nerve block applications, allowing for placement under ultrasound and stimulation techniques (Dual Guidance). As the leading echogenic nerve block needle globally, the SonoPlex includes the patented Cornerstone Reflectors for best needle echogenicity possible, irrespective of the insertion angle. The next generation SonoPlex II combines the proven needle shaft and needle tip visibility with a newly optimised needle hub.

→ Combination of ultrasound and stimulation guided procedures (Dual Guidance) for optimised patient safety

INDEPENDENT STUDIES

The Best Needle on the Market

- ▶ SonoPlex has the highest overall visibility on the market^{1,4}
- ▶ Significantly higher visibility at steep angles⁵
- ▶ Testified by independent studies^{1,4,5}

Non-Removable Injection Tubing

- Closed system
- No leakage

Removable Stimulation Cable

Easy removal of stimulation cable while keeping the system sterile

- Allows for more flexibility to match user preferences

Colour-Coded Needle Hub

- Easy identification of needle size

Cornerstone Reflectors

360 degree graduations on the first 20 mm of the needle

- Optimised ultrasound visibility of needle shaft and needle tip¹
- Reliable and optimised needle visualisation at any angle^{2,3}

NanoLine® Coating

Very thin polymer film, smooth surface, accurate inner and outer diameter

- Excellent puncture and gliding properties through smooth surface
- Improves visibility under ultrasound³
- Precise stimulation through the non-insulated needle tip

Depth Markings

- Easy to read and identify

Echogenic Needle Tip

Facet tip with two inclination angles

- Improves needle tip visibility under ultrasound

22G x 90 mm (3 1/2")	001285-31 J	001265-31 J	10

AVAILABLE OPTIONS

Additional needles for single shot nerve blocks:

- ▶ **SonoBlock II**
Echogenic, non-stimulating single shot nerve block needle, NanoLine® Coating
- ▶ **SonoTAP® II**
Echogenic, non-stimulating single shot plane block needle
